# 3 - WHITE COLUMN STOCKS - 3

*Tailored to the Cut Flower Grower's Specifications*

## **STOCK COLUMN NON-BRANCHING**

### **WHITE GIANT (Denholm)**

**WHITE GIANT** seems to completely fill the cut flower growers' request for a new and outstanding white non-branching stock. When planted outside in California, it comes into bloom about a week to ten days earlier than any of the existing standard varieties, being only a few days behind our second new variety, Avalanche.

**WHITE GIANT** has lots of vigor and a strong non-branching wiry stem growing about six inches taller than the regular strains of White Column Stock. The extremely large, extra double individual florets are of the purest glistening white, being beautifully spaced on a tremendous flower spike.

**WHITE GIANT** is the most outstanding improvement made in White Column Stocks during the last ten years, and we predict a great future for this variety, both for outside planting and sowing under glass.

Price per oz. \$5.00

Per lb. \$50.00

## **STOCK COLUMN NON-BRANCHING**

### **AVALANCHE (Denholm)**

**AVALANCHE** is definitely the earliest of all White Column Stocks under our growing conditions, and we are sure that this would hold true under most outside growing conditions. It is fully ten days to two weeks earlier than the regular strain of Gardenia, White No. 16 and White Pillar. It is also a few days earlier than our new White Giant.

**AVALANCHE** has plenty of height, being at least six inches taller than standard varieties. It is about the same height as White Giant and Gardenia Improved. The flower spike is particularly long and massive with the very double individual florets being close together to form the perfect spike. Flowers are paper white of great substance. This stock is different and in many instances may be the best of the three.

Price per oz. \$5.00

Per lb. \$50.00

## **STOCK COLUMN NON-BRANCHING**

### **GARDENIA IMPROVED (Denholm)**

**GARDENIA IMPROVED** is 10 days earlier than the regular well-known strain of Gardenia and grows at least 6 inches taller. It has a much larger individual floret and the florets themselves are much better spaced on the stem.

**GARDENIA IMPROVED** will please all who grow it, but it is especially recommended for those who have been using the regular strain of Gardenia. It is particularly suited as an outside Winter variety as the flower spike is fairly loose, thereby allowing the individual florets to dry out faster under wet conditions.

Price per oz. \$5.00

Per lb. \$50.00
